

January 11, 2021

We, the undersigned members of the Minnesota House of Representatives, unequivocally condemn the violence and violent rhetoric at the events in Washington D.C. and Saint Paul on January 6.

Those who participated in criminal destruction of property and assaults on our law enforcement officials at the United States Capitol should be arrested and prosecuted, and those who made threats of violence at the rally in Saint Paul should be investigated and held accountable.

We must all come together and affirm that violence, destruction, and threats — no matter the context — should be condemned and have no place in our political process.
